Re: Boomers San Diego – Beneficial Reuse Exemption for tires per Title 14, CCR 17346 (f)

Mrs. Rosales,

Boomers San Diego is located at 6999 Clairemont Mesa Blvd, San Diego, CA. We are seeking a Beneficial reuse exemption for tires per Title 14, CCR 17346 (f) for our Go-Kart track. Attached you will find the required information. The used tires provide a sound and economical source for shock absorption of Go-Karts that may veer off the race track. Compared to the cost of air bags, or the debris left on the track by hay bales, tires offer an effective, safe and economical alternative.

You will find enclosed:

- 1) A letter from the city of San Diego Planning stating they have no objections to the use of tires as a barrier system for our Go karts and it falls within our permit.
- 2) A inspection report from San Diego Fire stating that they have no objections to our use of the tires and that they do include them as part of their scheduled facility safety inspection.
- 3) A letter from San Diego County Vector control that there is no evidence of mosquito breeding within our barrier tires and therefore they have no objections to our use of tires for our Go-Kart barrier system.
- 4) Letter from Philippe Lalonde, California Licensed Civil engineer evaluating used tires as the best safety barrier system suited to the needs of Boomers San Diego Go-Kart track operations.

If you require any additional information please contact me at you earliest convenience.

Thank You

Bryon Anderson
Director of Maintenance
Boomers San Diego
